Swimming pool inspection policy

The 2015 International Swimming Pool and Spa Code are the rules governing swimming pools. Additionally, Charter Township of Caledonia shall schedule a final inspection 60 days from the date the permit is ready unless the applicant calls for a final inspection prior to this time.

All safety fencing and other measures must be maintained during the construction of the project. Temporary and/or permanent fencing installed by the applicant must be installed per the 2015 International Swimming Pool and Spa Code. Please note any temporary fencing must be constructed with the same integrity as the permanent fencing to provide protection against potential hazards associated with swimming pools.

A building inspection for the pool must be requested **prior** to the pool being filled with water and again **after** the project is completed.

Please sign and date on the line below acknowledging that you understand the requirements listed above and will comply with the attached 2015 International Swimming Pool and Spa Code.
